AUTONOMY DEBATE

CONTINUED IN THE HOUSE.

Sir Wilfrid denies any connection with any advances made to the Manitoba Delegates.

Bulletin Special.

Ottawa, April 6.—The autonomy debate still drags on and will not be over till the 18th. Roche and Turf, western men, spoke against and for the bill on Monday and Tuesday respectively. Perley, Conservative, of Quebec, will probably vote against his leader. This afternoon was occupied in discussing the manifesto of the Manitoba Government charging interference by the Papal Delegate, with the demand for an extension of Manitoba's boundaries, except at the price of the concession of separate schools. The effort of the Manifesto was to connect the Dominion Government with the suggestion of the Papal Delegate. The premier absolutely denied any such connection, and pointed out that in presenting the autonomy bill he had expressly shown that part of Saskatchewan and Athabasca districts had not been included in the new province of Saskatchewan so that the way might be left open for a future extension of Manitoba's boundaries together with those of Ontario and Quebec, with the original impression that the Manitoba Government had been dickered with Archbishop Langevin for support at the price of separate schools and now wants to forestall exposure and in consequence throw suspicion on the Dominion Government. This is the more probable from the well known fact that Premier Roblin owed his seat in at least one provincial Parliament to the clergy of St. Boniface and opposed the Greenway Government, when they were bringing the schools of Manitoba under state control.

King and President.

Bulletin Special.

Paris, April 6th.—King Edward is visiting President Loubet. The meeting is of notable significance. The French people are jubilant and consider it a set off to Emperor William's rudeness.

Death Roll at Mukden.

Bulletin Special.

London April 6th.—Official accounts give the Japanese losses in the battle of Mukden as 107,000 killed and wounded. Peace prospects are getting brighter. The only Russian official against the idea is the Emperor himself.

SECTERIAN FEELING

STIRRED UP BY THE DEBATE.

Rogers will issue another statement and Roblin is being pressed to say something for himself.

Bulletin Special.

Winnipeg, April 6th.—The publication of categorical denials by Sir Wilfrid and Mr. Sparretti, on the Manitoba delegates version of the terms upon which the Manitoba boundaries and the school question could be settled, created a profound impression in Winnipeg this morning. The perusal of the acid debates in the Ottawa House of the last two days has made a disagreeable impression and sectarian feeling has become much intensified. The taunts and interjections of the Orange and French Members during the discussion of the school clause and the reading of the Manitoba documents relating to the above burning question are gradually moulding public opinion into two religious camps. The fact that the Canadian Bishops do not entirely approve of an Italian Diplomat ordering the affairs will not tend to the Catholic ranks very much and they will stand together, Mr. Sparretti has not denied that he made overtures to the Manitoba Government, but says that what he did was without Federal authority. Hon. R. Rogers of the Manitoba cabinet however sticks to his guns this morning and says that another official statement will be handed out by the cabinet tomorrow morning. A personal statement from Premier Roblin is also anxiously awaited as he has been publicly accused of dickerings with the Papal Ablegate, and friends and foe alike are urging him each in their own peculiar way to come to the surface. Archbishop Langevin head of the hierarchy in the West, preserves an ominous silence. This is remarkable as the Archbishop has been credited in the public press with the statement that Sparretti made a "faux pas." The next sensation it is said will be the recall of Sparretti by His Holiness. A statement by the Manitoba Government was laid on the table of the House last night and was couched in strong terms.

Earthquake Stricken India.

Bulletin Special.

Calcutta, April 6th.—Later accounts of the earthquake give tremendous lists of damage and casualties, many Europeans principally in the families of English officials being killed as well as natives.

THURSDAY, APRIL 6th, 1905.

The Beef Situation.

Farm and Ranch Review. The spirit of discontent in undoubtedly abroad amongst Western cattle men and even after making full allowance for the grumbling propensities which glib tongued townmen are ever kind enough to attribute to their country cousins, we are still unable to conclude that the beef producers of the West are in a position or could be expected, to view with any degree of satisfaction the trend of beef prices since the opening of the buying season if indeed such a season ever opened in earnest last year.

The export trade last year has been dull and it is currently reported that the beef exporters are not making money even at the low prices they are paying. That they lost money on the 1903 shipment is generally admitted, but we are inclined to believe that the lesson of that year taught them to save themselves and chances are that when they make up their books for 1904, they will find that the balance will be on the right side of the ledger, unless we are very much mistaken. If any exporter can show us a loss, the "Review" will humbly apologize, but our faith in the business sagacity and experience of the men handling the Western export trade is too profound to admit of our believing for one moment that they would voluntarily sustain a considerable financial loss two years in succession.

We use the term "voluntarily" advisedly, and that single word contains the key to the whole situation. What is there today to compel any buyer to pay more for cattle than he considers a fair value? What indeed is there to induce him to pay even a fair value? Competition! Surely no one with any knowledge of Western market conditions would be simple minded enough to imagine for one moment, that there is legitimate competition for any class of beef. Do we then insinuate that our cattle industry is in the grasp of a "beef ring" such as is today preying on United States' broadest? Nothing of the kind. We simply have not enough buyers in the field to even make the formation of a ring necessary. A few firms control the whole situation and their dictum is law as effectually as the word of the czar of all the Russians, upon whom our big bearded rancher is at present expending all the sympathy his generous nature is capable of. His indignation over atrocious oppression of fellow men in Russia does him credit. Let us not, however, assume the patronizing attitude. Political oppression is bad; but commercial oppression is possibly worse. The one robs you of your liberty, the other of your living and when things are reduced to their finality a free man with an empty stomach cuts a mighty poor figure in practical, every day affairs. This little digression from our subject is merely designed to divert our sympathetic minds from troubles abroad and concentrate them for a moment on troubles at home.

We do not feel disposed to attach serious blame to the cattle buyers, for the present unsatisfactory condition of the market. These men are human and are guided by the business aspect of the situation. They buy in the cheapest market and sell in the dearest, both of which happens to be at their front door. The supply of butcher's stock at present is greater than the demand, hence the buyer can afford to be independent. The stock-grower is simply the victim of over production.

Most of our readers will doubtless think that we are wasting a good deal of valuable space in rehearsing a grievance which is universally felt and admitted and that our efforts might more profitably be devoted to discovering the remedy. Remedies in this case are apt to be drastic and drastic remedies are seldom applied until the public mind is thoroughly saturated with a clear conception of the enormity of a grievance. Such being our conviction we do not feel like apologizing for "piling on the agony."

Remedies there are Cooperative marketing. A radical change in the present wretched system of ranch-to-market buying and the introduction of

public market at central points. The general improvement of our cattle stock so that we may produce more exports and fewer low grade animals. Prohibitive regulations respecting the importation of Mexican and other inferior grades of cattle, that glut the limited demand for rough stock. The proper grain finishing of our export cattle, so as to spread the marketing over the entire year. The development of a dead meat trade.

WILL SUBDIVIDE CAREY PROPERTY.

Mr. T. A. Stephen, agent for the Carey property adjoining the city on the north west, has decided to sub-divide the property into villa lots of from one to five acres and put them on the market. The entire property comprises 320 acres. The proposal is to reserve fifty acres of this, with the large residence on the farm, the building to be used as a club house, and the grounds as athletic grounds. The plan has not matured yet, but a company may be formed to take over this part of the property and run it for the purpose indicated. Mr. Stephen intends going over the property on Saturday with the surveyors and the subdivision will probably be made at once.

TIME TO GET BUSY.
House Cleaning Time Will
Soon Be Here.

You will want Paint, Varnish, Furniture Polish, Wall Colors and Brushes.

Ross Bros., Limited, have the best assortment of these Goods to be found in any store west of Winnipeg, and you will be surprised to find how simple it is to apply these goods if properly selected

ROSS BROS. buy direct from the Manufacturers, and their long experience in the paint business enables them to choose what is best in material, and simplest in application.

There are so many times that a lady wants to do a little touching up in a room or on a piece of furniture, but does not want to go to the trouble or expense of engaging a painter. Any man, woman, or child can do a good job with our ready mixed paints, and if you need any directions it is no trouble for Ross Bros. to give all the information necessary. New and fresh paints arriving almost daily.

THEY SELL AN IMMENSE QUANTITY in a season and the continual turnover always WARRANTS FRESH GOODS, which is a very ESSENTIAL THING in good READY MIXED PAINTS AND VARNISHES. Many smaller concerns will say their goods are just as good and fresh, but use your own judgment in this, one common sense will show you the difference.

To those who expect to want wire fence this season, Ross Bros. would like to call attention to the "LAMB WOVEN WIRE FENCE."

Many people will think that one wire fence is as good as another, but there are many reasons why some Woven Fences are better than others. The LAMB FENCE has a look or fastening peculiarly its own. It is made from the best Galvanized Carbon Wire. Provision is made for the contraction and expansion, and it does not sag or buckle which is so annoying in a great many fences. The wire is heavy and strong, and are made to withstand the pressure or attacks of the largest animals, and any man can stretch it into place. It is kept in 20, 30 and 40 rod rolls, in heights of 24 inches, 30 inches and 32 inches, sold in Edmonton only by

The Great Figure of the War.

"Marshal Oyama has been a soldier all his life," said Baron Kaneko, the eminent Japanese statesman who is now in New York, speaking to a newspaper correspondent. "I know him well, having been his colleague for several years in the cabinet. He comes of fighting stock, being of the Satsuma clan and the descendant of centuries of Samurai. Tradition gave him the instincts of a soldier, and his education developed them. The Japanese army of today is largely his creation."

Baron Kaneko's mission to the United States is for the purpose of raising money for the continuance of the war. "Unlike most Japanese," Baron Kaneko continued, "the Marquis Oyama is a big man. He is tall, broad-shouldered, deep-chested, and inclined to stoutness."

"He is a man of tremendous foresight—always looking ahead and seeing what will be necessary to do almost as if he had prophetic vision. He is, I think, sixty-one years old. So he was about twenty-four in 1868, when he took part in the war for the restoration of the Emperor. After that war he rose steadily in military rank, and travelled a great deal in foreign countries. In the years between 1880 and 1889 he was in the cabinet a large part of the time. While he was Minister of War with Count Katsuma, the present Premier, as Vice-Minister, they between them organized the Japanese army on a modern basis—organized it as it is today. When the first Parliament met in 1890, it was necessary to lay before it the complete army scheme, in all its details, in order that the representatives of the people might know what it was to cost. This stupendous task he and Count Katsuma finished well before the time which illustrates what a capacity for organization he had."

"There are many great soldiers who are splendid organizers, but not much use as actual fighters. Marquis Oyama is not one of these. He is a fine practical fighter, as his campaigns against China and Russia show a magnificent and daring strategist, and a man of great personal bravery. He has the admirable faculty of gathering about him men of high character and ability, of inspiring them and getting them to work together with out friction. His personal staff in the present war is the best illustration of this. Nogi, Kuroki and Nodzu and the others were all his personal selection, and no finer staff could have been gathered. This quality of choosing his subordinates in order that the right man may be always in the right place extends down through the whole army. Oyama knows his officers and knows how to place them where they can do the most effective work. Thus, under him the army is like a perfect pyramid, with Marshal Oyama at the top, the generals under him, the officers and uncommissioned officers in their several grades, and lastly, the base of the common soldiers."

"He, like every other man in the army, has ever before his eyes the seven precepts which His Majesty the Emperor laid down in his edict of January 4, 1892. You know the Japanese army has the Emperor as its General-in-Chief, and the royal family, including the Empress, only below him. So his edicts are the army's law. In the edict I have mentioned the Emperor directed that on the walls of the barracks and on the sides of the tents, at the foot of every soldier's cot, a printed copy of the seven moral principles should be hung, in order that the last thing the soldier sees on retiring for the night and the very first thing that greets him on awakening may be these precepts. Every morning after roll-call the captain of each company, or, if it may be only a corporal, reads these precepts aloud to his men. He then makes the men recite them in a body and afterwards calls upon them individually to recite them."

"The Mikado's precepts are:

1. To be sincere and loyal and to guard against untruthfulness.
2. To respect superiors, keep true to comrades and guard against lawlessness and insolence.
3. To obey the command of superiors, irrespective of its nature, and never to resist or disregard it.
4. To prize bravery and courage and to be diligent in the performance of duties, and guard against cowardice and timidity.
5. To banish not of brutal courage, and neither quarrel with nor insult others, which will incite general hatred.
6. To cultivate virtue and practice frugality, and guard against extravagance and effeminacy.
7. To prize reputation and honor and guard against vulgarity and greed."

"Truly," remarked the newspaperman, "a set of maxims suitable for any man, soldier or civilian."

"Yes," replied the Baron, smiling, "and it is the practice of these that makes our soldiers what they are, from the common infantryman up to the great Field-Marshal Oyama."

GOOD AGENTS FOR THE Oliver Typewriter

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

WHAT COSTS MOST

WHOLE lot of people fancy the cigar business is a snap! They figure out that all you need is some cases of tobacco, a few cigar makers, and the name of some stage favorite or prominent man.

The quality of the filler does not interest them at all—the binder is beneath their notice—but the wrapper and the name is all important.

They can sell this kind of cigar at \$55.00 a thousand, give a gold watch into the bargain, and then make a good size profit.

The principal cost of Pharoahs is in tobacco—I buy the best filler in the world—a Cuban leaf—one I select myself from the best of the Manicure district, in the Province of Santa Clara—a Connecticut broad leaf as binder, the most expensive in the world—and I import a clear leaf Sumatra from Holland as wrapper.

I secure by this means a superb cigar, a fragrant, even smoker—very palatable—very superior to the ordinary run of cigars.

BOARD OF TRADE.

The Board of Trade has plans well on the way for a vigorous and effective immigration campaign. Attractive literature, will be distributed where it will do most good as soon as it can be got from the printers' hands, and advertisements will appear in the best mediums for reaching the people that we want.

Everybody can help in getting literature into the hands of prospective settlers. Everyone has some friend or acquaintance in Great Britain who is thinking of coming to Canada, or in Eastern Canada or the United States, who is thinking of coming west. Drop into the Secretary's office in the Sandison Block and leave the address of such friends, who will then be sent printed information in regard to the city and district, possibly accompanied by a letter from the secretary, if the circumstances seem to require it.

People who will do this can be of material assistance in furthering the plans of the board, and it is hoped that large numbers of residents of the district will take the small amount of trouble involved, for what is obviously to the benefit of the whole district.

It is also the intention to make the most effective possible display in the board rooms of the natural and other resources of the city and district. The public can make this a success by contributing samples of the resources of the district.

The office, room 6, Sandison Block, is very centrally situated and easy to find.

LAND OFFICE RETURNS.

Spring work at the Land Office has opened up with a rush. The homestead entries for March, 1905, are more than double for the same month last year, while the letters under inquiry show a very large increase. A good feature of this year's immigration is the fact that the majority of settlers are Canadians, being practical farmers and suited to western conditions.

Below is a short statement of the returns for March, 1905, as compared with March, 1904.

Sunlight Soap

outshines them all in cleansing power, yet will not injure the daintiest fabrics. It contains no unsaponified fats to discolor your clothes nor free alkali to destroy them. It is a perfectly balanced soap, equally good with hard or soft water. No scrubbing, no boiling.

Try Sunlight.

Your money refunded if you don't find it best.

LAWN GRASS

When you go to the expense of getting ground ready for a lawn, it is poor policy to be careless about the selection of the seed.

The seed suitable for Ontario and the Eastern Provinces will not do in the North-West as the tender roots are killed during the severe winter.

After years of experimenting, a satisfactory mixture, consisting of seed of entirely native variety, has been found.

USE B. & K. LAWN GRASS

and if the directions are properly followed you will not be disappointed.

Among the successful users of B. & K. LAWN GRASS we mention:

J. H. Picard, Alderman, Edmonton. J. A. McDougall, Merchant, Edmonton.
Alex. Taylor, Post Master, " A. W. Ormsby, City Electrician, "
S. Large, Merchant, " Mayor Davis, Strathcona.

The Strathcona Tennis Club, Strathcona. And many others.

THE "DOMINION" FUND

Some time since the Imperial Bank announced that subscriptions would be received at the various branches for providing a library or other comforts for the sailors of the Dominion, the new British battleship which is being named after this country. The receipts at the local branch have been very satisfactory, and the list is still open for any who may wish to contribute. No contribution of more than 25c. accepted.

Following are those who had contributed to the fund at the local branch of the bank up to now, yesterday: G. R. P. Kirkpatrick, H. W. Supple, G. W. Bridges, W. A. Beirson, A. L. Sawle, L. H. Stinson, Alex. Clark, V. J. Mann, H. W. Heath, St. Geo. Jellett, J. B. Moore, P. E. Leonard, Jas. McDonald, I. S. Cowan, R. H. A. W. F. Lines, J. C. Griffith, K. W. MacKenzie, H. W. B. Douglas, Geo. J. Kinnaird, C. H. Hubbell, W. H. Cooper, J. H. Plead, J. H. Garsiey, F. A. Osborne, J. H. Cartwright, J. T. Blouey, J. C. M. Johns, J. C. McDougall, Geo. T. Bragg, J. E. Laurence, W. J. W. Morris, W. H. Martin, K. A. McLeod, G. H. Graydon, Alex. Taylor, Miss E. Taylor, Walker Taylor, J. A. Stovel, H. Secord, J. M. Turnbull, H. Miller, H. W. Marling, C. P. Gray, Conner Park, Bulletin, W. A. Griessbach and Jas. Ross.

Discussing the fund the Toronto News says: The Dominion Fund, which is being raised by twenty-five cent subscriptions, to be devoted to providing a library and other requisites for the battleship named after this country, furnishes an ideal opportunity for a display of that patriotism which is at once the pride and boast of the people of Canada. There has already been a most generous response to the appeal, as the submitted list shows, but, no doubt, there are thousands of others who would be glad to contribute to the fund which will be the means of giving so much real pleasure to Jack and the new sailor. The idea of furnishing men of war by the places after which they are called has become quite popular in England and Australia, and the compliment now paid to Canada is one which cannot fail to be appreciated throughout the length and breadth of the Dominion. Certainly Canada will not be behind other countries in an interesting matter of this kind, in fact, the people should rather be stimulated to certify anything that has yet been done in this respect.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory

Coal.—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2900 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual and from \$50 to \$100 per annum for a company, according to capital.

A free miner having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein. The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof, when \$300 has been expended or paid the locator may, upon having survey made, and upon complying with other requirements, purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and nickel, also copper in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer mining. Manitoba and the N. W. T., excepting the Yukon Territory. Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where stream power is used claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark and subject to the rights of all persons who have or may receive entries for bar diggings on bar claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles but where a person or company has obtained more than one lease, one

dredge for each fifteen miles or fraction, will be sufficient. Rental, \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years and also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date from the lease and one dredge for each five miles within six years from such date. Rental, \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer mining in the Yukon Territory.—Creek, gulch, river, and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company taking a claim must hold a free miner's certificate. The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged the rest of the part ordinary claims only.

Entry fee \$10. Royalty, at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory, to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim, on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miner's may work their claims in partnership by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year. If not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Location suitable for hydraulic mining, having a frontage of from one to five miles and a depth of one mile or more may be leased, for twenty years provided the ground has been prospected by the applicant or his agent, is found to be suitable for placer mining and does not include within its boundaries any mining claims already granted. A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the Northwest Territories and within the Yukon Territory are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre subject to royalty at such rate as may be specified by order-in-council.

SCHOOL BOARD MET.

The board of the Edmonton Protestant public school met in the office of the secretary on Tuesday afternoon, Mr. A. Taylor in the chair and K. A. McLeod and Rev. H. A. Gray present.

Mr. A. B. Cushing wrote resigning from the board, owing to his removal from the city. The resignation was accepted with regret and the Secretary-Treasurer of the city asked to take the necessary steps to fill the vacancy.

Mr. J. A. Calder, assistant commissioner of education, wrote in answer to an inquiry from the board that a Roman Catholic tenant of a Protestant ratepayer could not be taxed if his children attended the Protestant public school, taking the ground that the owner, having paid taxes on the property, these could not be assessed a second time.

The secretary was instructed to inform the department of education, Regina, that the board had no objection to eight acres being taken from the Belmont district and added to the Edmonton district.

The following tenders were received for the plumbing and heating of the McKay avenue school.

Ross Bros. \$7658.00.
Revillon Bros. \$7248.00.
Lockert & Co. \$7417.00.

A. Lee and Co. \$7850.00.
The tender of the Revillon Bros. was accepted.

The meeting was then adjourned at the call of the chair.

LOCAL

—Train on time.

—Prize—Five today and Friday, continued war.

—Principal Riddell lectures in McDougall church this evening.

—Myriads of June bugs were in evidence on Tuesday evening.

—The whist club gave a dance in Sandison hall last evening.

—The cricket club meet this evening at 8.15 sharp in St. Geo. Jell's office over the post office.

—Now that the other clubs are organizing for the season, what about the baseball men?

—The hockey club will give a ball in the Thistle rink on the 27th inst.

—The Regina Daily Standard has been increased in size and now appears as an eight page five column paper.

—W. Ginter came in from Pittsburg, Ill., last night with three assistants to resume boring operations at the gas well.

—A G. T. P. party left this morning to take up survey work on the line east from Edmonton. J. Armstrong will be in charge. The party will be out until October.

—Large number of immigrants continue to arrive daily, an unusually large number of Americans are expected on Friday, being members of an excursion which left St. Paul on Tuesday.

—A meeting of the subscribers to the Y.M.C.A. fund will be held in the basement of the Presbyterian church on Friday night at 8 p.m. Members of the citizens committee are requested to attend.

—The ice is gradually disappearing from the river. Yesterday a considerable movement took place and left a large clear space above Fraser's mill. This morning only a strip of ice remained along the banks below the bridge.

—Tuesday's C. & E. train was unusually heavy even for the immigrant season. A large number of the new comers stopped at Lacombe and will settle in the Battle River country. The larger number of passengers were from the United States.

—Minneapolis, Minn., April 4.—A special from Butte, Montana, says that President Joseph Smith, head of the Mormon Church, has bought 67,000 acres of land in Alberta, and proposed to establish a colony of Mormons. The price paid was almost \$400,000.

—Innisfail, April 4.—Diphtheria has broken out in the town. Part of the Royal hotel is quarantined and the schools have been closed. The Medical Health Officer, Dr. George, is giving the matter prompt attention. F. F. Tims went to the Fort yesterday.

—Ottawa, April 3.—The secretary of state will introduce legislation to make it easier for new settlers in the North West to take out naturalization papers. At present the proceeding involves the employment of a lawyer's services and complaint has been made that this involves unnecessary expense. The law will be amended so as to meet this objection.

—Calgary Herald: A very handsome four story stone building is to be erected by Norman Jackson on the lot just east of the Alberta hotel. Geo. Lang is the architect. The structure will be an adjunct to the hotel, 25 by 130 and very modern in every detail. The ground floor will be for mercantile purposes and there will be a basement entrance from the street.

—At Tuesday evening's meeting of the council Mayor MacKenzie drew attention to the preparations being made by Regina for fifty celebrating the birthday of the new province and intimated that it would be a proper thing for the Edmonton council to co-operate with the Exhibition Association in making the day distinctly a provincial day. The matter was discussed at some length and will likely come up again at the next meeting.

—Calgary Herald:—A Finn is charged at the N.W.M.P. barracks with insanity as the result of his erratic actions at the Madge homestead east of this city. The man had been here a short time and got a meal, as he said he was hungry, and shortly afterwards when Mr. Madge left the house the Finn nailed up the door and gave an exhibition of "holding the fort." On the owner's return the visitor started after him with an axe and a courier was despatched for the Mounted Police.
